## **IEM-SAFE UNIMAS Student Section**

**2013/2014**

## What is IEM?

The Institution of Engineers, Malaysia (IEM) is a professional learned society. It was formed in 1959 and was admitted a member of the Commonwealth Engineers Council in 1962. The Institution is a qualifying body for professional engineers in Malaysia.

The Corporate member of the Institution can apply to the Board of Engineers, Malaysia (which is a registration body) for registration as a Professional Engineer, which will entitle him to set up practice. The qualification standards are determined by the Council of the Institution.

The Institution is one of the few professional engineering institutions in the world, which represents all disciplines of the profession, and is thus able to take a broad view of the professional scene.

### **IEM-SAFE**

IEM-SAFE UNIMAS Student Section is one of the prestigious club in UNIMAS which leads the members to attain a professionalism status in engineering. This club served as connecting bridge between IEM-SAFE UNIMAS Student Member and IEM, Malaysia.

### **Objective**

To cultivate and expose students into the professional engineering world.

### **Vision**

To continually and progressively support the professional development of student members.

### **Missions**

To assist members towards achieving professional status

To encourage interaction and fellowship among members

### **Membership Fee**

RM 50.00 for 4 years

### **Benefits of Joining IEM**

- ◆ Gain recognition for engineering experience and professional accomplishments.
- ◆ Get assessed on proficiency to qualify for registration as a Professional Engineer.
- ◆ Access to a wide network of fellow engineers in the private and public sectors in Malaysia as well as regional and international engineering bodies.
- ◆ Advance professional development by attending regularly organised in-house talks, external conference and site visits.
- ◆ Corporate members of IEM are accepted for registration as a professional engineer with the Board of Engineers Malaysia.
