

MINISTRY OF HEALTH  
MALAYSIA

## ABOUT THE PROGRAMME

The complexity of modern day healthcare facility management requires competent facility managers in meeting stakeholders' needs. Advanced knowledge and skills are crucial to anyone involved in a healthcare setting.

The Faculty of Engineering, UNIMAS is offering the Certified Healthcare Facility Manager programme to develop facility managers who will optimize the physical healthcare environment.

The programme is developed in collaboration with the Ministry of Health Malaysia and industrial players, offering modules adhering to the standards of a certified healthcare facility manager for both public and private sectors.

## POTENTIAL CANDIDATES

This programme is offered to current healthcare facilities managers, particularly in East Malaysia and also others embarking careers in the field.

## PROGRAMME HIGHLIGHTS

The programme is awarded by Universiti Malaysia Sarawak (UNIMAS)
